

Machine Learning: Homework on SVM with Kernels

Fabio Vandin

December 1st, 2023

Instructions

You have to complete 1 Jupyter notebooks for SVM with kernels

The notebook has missing code: need to fill in what is missing

Read Section “Outline” and Section “IMPORTANT” of the notebook before starting!

FIRST THING TO DO: you need to put your ID number in the notebook (that you will need as seed random number generators).

If no ID number for Laurea Magistrale: use the ID number from your previous degree.

Deadline

Submit your completed notebooks:

- **deadline: Friday December 15th, 11:55 PM**
- **use link in elearning website**

Submit 1 file - **only submit your completed notebooks!**

IMPORTANT: Use the following file names for the file that you have to submit:

- SVMK_FirstnameLastName_IDnumber.ipynb

Example: student Fabio Vandin, ID number 000001 will submit file:

- SVMK_FabioVandin_000001.ipynb

WRONG FILE NAME = 0 POINTS
